

CLAREMONT

A tradition of excellence

SECONDARY SCHOOL

Dear Students and Families of Claremont:

Claremont Secondary's tradition of excellence encourages students to discover and follow their passions. Many roads lead to success so Claremont offers a diverse selection of programs and pathways: academic, elective, and extra-curricular. Making informed choices will help you plan for the future.

To assist students and families in making the right choices, Claremont will be hosting an **Open House** on February 6th. Families are invited to come and experience the positive, respectful and safe environment Claremont has to offer. Course offerings and program opportunities will be highlighted along with an insight as to how Claremont supports students in meeting the rigor and expectations for the transition to the world of work or post-secondary options.

Claremont offers **Programs of Choice** that create different pathways in preparing students for Learning in the 21st Century. Information sessions will be offered during the evening to focus on specific program requirements and the application process. Specific programs at Claremont are:

- “Lacrosse Academy” – developing a strong sense of team
- “Aquatics Academy” – balance between high performance training and academics
- “Pursuit of Excellence” – excelling in your chosen pathway
- “Rowing Academy” – achieving your personal best
- “Institute for Global Solutions” – learning for the 21st Century
- “Golf Academy” - developing individual skill
- “Claremont's Focus On Fine Arts” - following your passion

Along with the specific programs listed above, Claremont has program links with Camosun College and the University of Victoria. Advanced Placement courses and Secondary School Apprenticeships prepare students for further post-secondary training.
