

Return of \$10 bill a valuable lesson

I was walking in my neighbourhood with my kids recently when a young boy and two of his friends skateboarded to me with a \$10 bill and asked me if I had dropped it. We realized that one of my kids had lost his pocket money on the way. We are so thankful to the three boys, who said they were from the Royal Oak Middle School. I commend those boys for their concern for others and for valuing what belongs to others, no matter how small. They not only did the right thing but through their exemplary behaviour also taught my kids to do the right thing. Kids are sometimes our greatest teachers. Their parents and teachers should be so proud of them. I wish them another great school year!
